

User Acceptance Testing (UAT) Template

Date	19 July 2026
Team ID	
Project Name	AI-Powered Debt Relief & Financial Recovery Platform
Maximum Marks	

Project Overview:

Project Name: AI-Powered Debt Relief & Financial Recovery Platform

Project Description: A full-stack web application that helps borrowers who have fallen behind on loan payments understand how serious their situation is (via a debt-stress score) and negotiate a fair settlement with their lender using an AI-generated negotiation letter.

Project Version: 1.0

Testing Period: [Start Date] to [End Date]

Testing Scope:

- Loan intake — creating, listing, viewing, and deleting a loan
- AI-powered settlement recommendation — debt-stress score and settlement percentage calculation
- Intelligent negotiation letter generation — letter type/tone selection and Gemini-based (or fallback) generation
- Financial health dashboard — EMI ratio, monthly surplus, stress level, and settlement history across all loans

User stories to be tested: the 7 user stories defined in the Requirement Analysis phase (Data Flow Diagrams and User Stories document)

Testing Environment:

URL/Location: Frontend – Vercel deployment; Backend – <https://recovery-ledger.onrender.com>

Credentials (if required): Not applicable — no login/authentication in the current scope

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Create a new loan with valid details	1. Go to Add Loan 2. Enter valid outstanding amount, EMI, overdue months, income 3. Submit	Loan is created and appears in the loan list		
TC-002	View debt-stress analysis for a loan	1. Open a loan's detail page 2. View the analysis section	EMI ratio, monthly surplus, stress level, and settlement % are displayed correctly		
TC-003	Generate a negotiation letter	1. Open a loan 2. Choose letter type and tone 3. Click Generate	A personalized letter using the loan's real numbers is generated and displayed		
TC-004	View dashboard summary	1. Navigate to Dashboard	Aggregate stats and settlement history across all loans are shown correctly		
TC-005	Delete a loan	1. Select a loan 2. Delete it	Loan is removed from the list and no longer appears on the dashboard

Bug Tracking:

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Comments/Feedback
BG-001					
...	...	...	...	...	...

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
