Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows the team to find the ideal solution for the challenges customers face. Throughout the process, the team empathizes with the customer, which helps in understanding how they perceive the product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a salaried borrower with an overdue personal loan	pay down my loan and protect my credit score	I don't know if I can realistically afford my current EMI or what a fair settlement looks like	I have no objective way to assess my financial situation or benchmark a reasonable offer	anxious and unsure whether contacting my lender will help or hurt me
PS-2	a borrower several months overdue on a loan	negotiate a settlement directly with my lender	I don't know how to write a professional, persuasive negotiation letter	I've never had to do this before and settlement agencies are too expensive to hire	overwhelmed, and tempted to just avoid the lender's calls entirely
